RE: Dover Gas Light Superfund Site Proposed Plan

Dear Mr. Vetter,

For your information, enclosed is a copy of the Dover Gas Light Superfund Site Proposed Plan which was released to the public on February 2, 1994. I am sure comments and questions will arise during the public comment period which I will need your help to address. Also, if you have one, please send me an example copy(ies) of a memorandum of agreement that EPA has signed with the Advisory Council on Historic Preservation for a Superfund site.

If you have any questions regarding this matter, please call me at 215-597-0978.

Sincerely,

Randy Sturgeon
Remedial Project Manager
